CRANE SYSTEMS

| Jib Cranes

| Flexibility at the highest level

Jib Cranes

NIKO jib cranes for loads up to 2000kg, can accommodate almost every task in the workshop due to a wide range of options available, making them ideal for numerous industries and applications.

General Handling

Facilitate daily works assuring a secure and precise operation during handling a variety of loads. The jibs can be used with tool balancers, manual or electric chain hoists and other lifting machines.

Manipulators

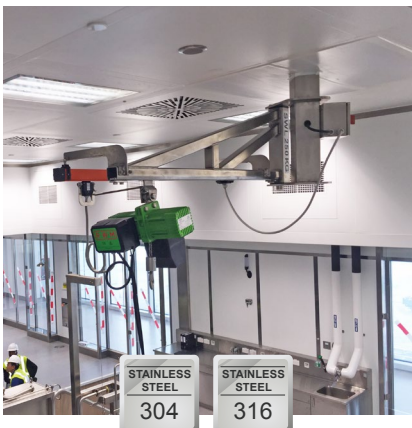

Vacuum handling

Assembly lines

Bespoke applications

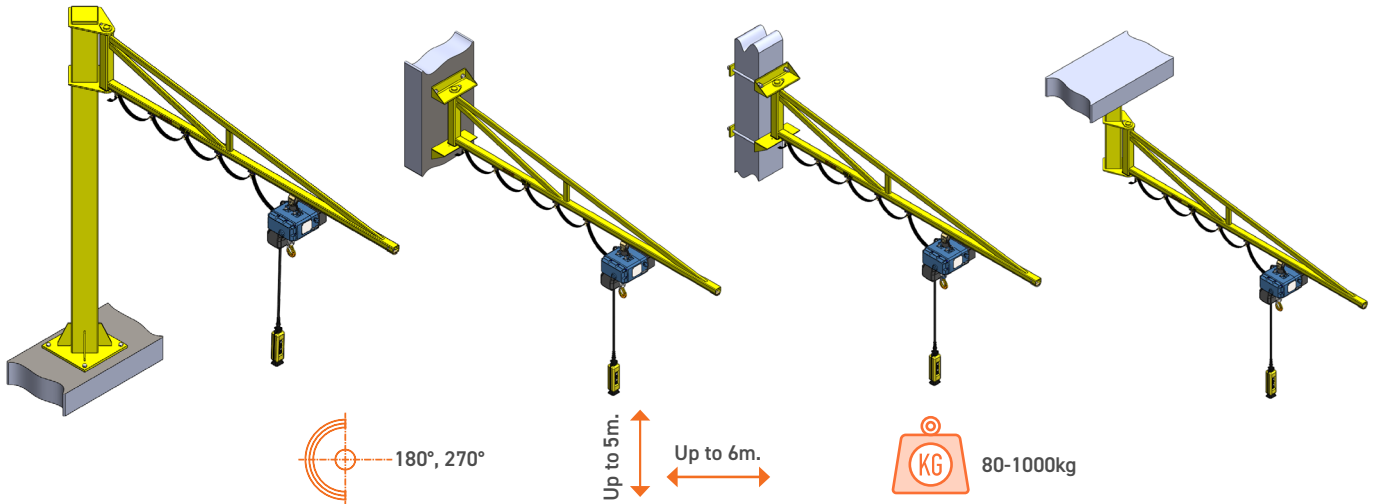

We can provide you with standard or bespoke jib cranes that will cover all your lightweight lifting needs. From special designs for low headroom applications to articulated arms for moving around obstacles.

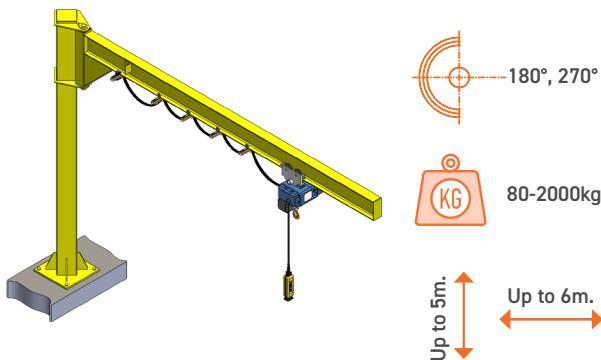

Product variations

With NIKO Jib cranes various mounting options like fixing on the floor, walls, columns or even on ceiling ensure the integration flexibility into every operation and building. The jib arms can be standard NIKO profile or I-beams according to lifting needs and capacity while options for hoist, festoon system, cable and trolley for hoist can be provided.

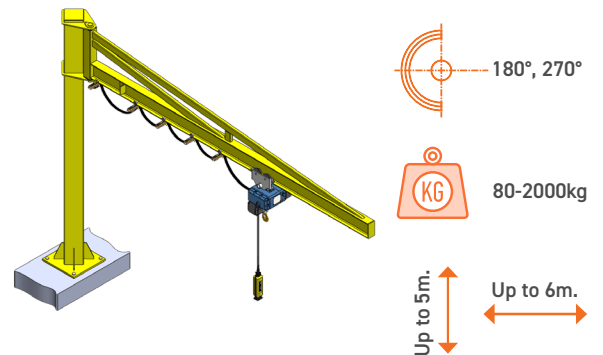

Overbraced (OB) NIKO Profile Jib cranes

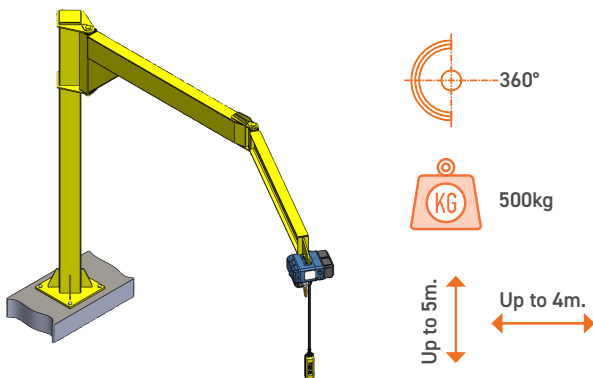

Under-braced (UB) I-beam jib cranes

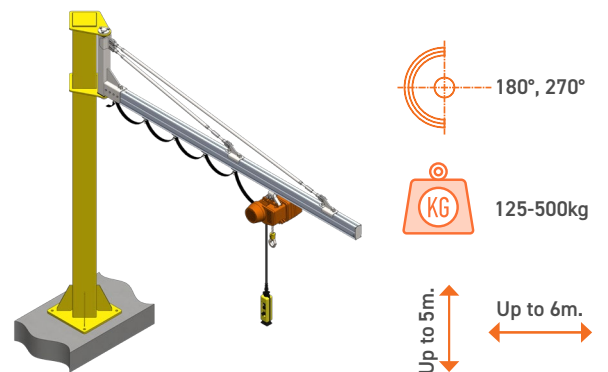

Over-braced (OB) I-beam jib cranes

Articulated jib cranes

Aluminium Profile Jib cranes

Our jib cranes are provided with the compatible manual or electric hoist upon request.
